

Are You **READY!**

Electricity lights up our world!

Think of all the ways we rely on electricity: keeping food fresh, cooking meals, and getting information through the internet or TV. It keeps us warm in the winter, cool in the summer, and connected with each other year round. Oftentimes, we use electricity to play and have fun! Are you and your family ready if disaster strikes and your home is without power?

How would we see at night without power?

Help your family build an emergency kit! Collect these items and keep them together in a safe place that you can find easily. Make sure you have enough supplies to last for at least **three days**.

Emergency Supplies List

- | | |

Family Communication Plan

Emergencies can happen at any time. Does your family know how to get in touch with each other if you are not all together?

Before an emergency happens, have a family discussion to determine who would be your out-of-state point of contact, and where you would meet away from your home — both in the neighborhood and within your town.

*Let them know
you're OK!*

Pick the same person for each family member to contact. It might be easier to reach someone who's out of town.

Text, don't talk!

Unless you are in danger, send a text. Texts may have an easier time getting through than phone calls, and you don't want to tie up phone lines needed by emergency workers.
